

 **Schöck Isokorb®**

Luxurious Comfort.
Superior Efficiency.

Footsteps to luxury.

Welcome to the next level of thermal comfort. A luxuriously warm living space is yours from floor to ceiling, head to toe. Observe the magnificent city views bestowed and feel the comfort and warmth near the balcony. Consistent indoor floors and surfaces temperature are possible with innovative structural thermal breaks by Schöck Isokorb®. Good bye cold feet.

Comfort from head to toe by avoiding thermal bridges.

Reaching a higher standard in balcony design. Schöck Isokorb® structural thermal breaks provide durable quality and superior comfort.

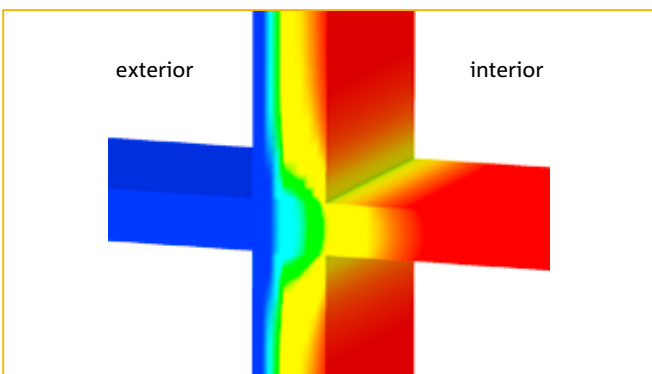

Take it a step further.

Overall, balconies cause energy loss, however Schöck Isokorb® structural thermal breaks reduce this loss. Most residential properties look to impress with features you can see. In high-performance buildings, attention to balcony details are taken a step further, bringing comfort you can feel.

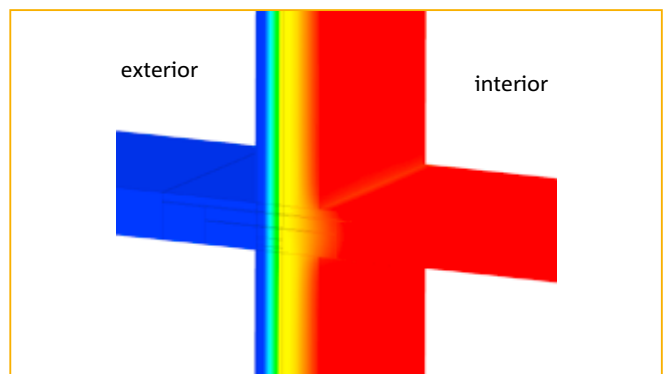

Always a step ahead.

Achieving a higher standard of efficiency takes dedication and innovation. Leading property developers are committed to using innovative products such as Schöck Isokorb® structural thermal breaks. While you may not be able to view the innovations incorporated, you will feel the difference. Schöck Isokorb® is incorporated for superior thermal comfort, saving energy, heating and electric costs.

- ▶ Greater Energy Efficiency
- ▶ Lower Electricity Costs
- ▶ Increased Thermal Comfort

Thermal bridging allows freezing temperatures to flow into the building creating cold floors and higher electricity costs.

Schöck Isokorb® creates a thermal barrier that stops freezing temperatures from entering your condominium, keeping your feet warm and your energy costs lower.
